Test Data	Valid/Invalid Mobile Numbers, Special Characters, Out-of-service Pincodes, Verified/Unverified Vendors					
Tester	QA Lead / Senior Tester					

Test Case ID	Module	Test Scenario	Test Steps	Test Data	Expected Result	Actual Result
1	Login	Verify OTP-based login with valid mobile number	Open Justdial -> Click Login -> Enter 10-digit mobile number -> Enter valid 6-digit OTP	Valid Mobile: 9876543210, OTP: 123456	OTP auto-read or validated; user logs in successfully and profile appears	Done as expected
2	Login	Login with incomplete / less than 10-digit mobile number	Click Login -> Enter 8 digits in mobile number field -> Click Get OTP	Mobile: 98765432	'Get OTP' button should remain disabled or show 'Enter valid 10-digit number' error	Done as expected
3	Login	Login with invalid OTP input	Click Login -> Enter valid mobile -> Click Get OTP -> Enter incorrect OTP code	OTP: 000000	Show error message 'Invalid OTP entered. Please try again.'	Done as expected
4	Login	Verify Resend OTP functionality after cooldown timer	Click Login -> Click Get OTP -> Wait 30 seconds for timer -> Click Resend OTP	Valid Mobile	Resend OTP button triggers new SMS and resets timer	Done as expected
5	Location	Auto-detect user current location via browser promot	Open Justdial homepage -> Allow browser geolocation access promot	Browser Location Permission: Allow	Location updates to current city/area automatically in location field	Done as expected
6	Location	Change city manually to a non-metro city	Click Location dropdown -> Type city name -> Select from autosuggest list	City: Madurai	Homepage refreshes showing local services and popular categories in Madurai	Done as expected
7	Location	Search location with non-existent pincode or invalid string	Click Location dropdown -> Type invalid pincode	Pincode: 000000	Displays 'No matching location found' autosuggest dropdown message	Done as expected
8	Search	Search for a valid service with keyword + city context	Enter service keyword in search bar -> Select city -> Click Search button	Query: 'Car Repair in Delhi'	Search results page displays relevant auto repair centers with ratings and call buttons	Done as expected
9	Search	Search with SQL injection / Script tag security test	Enter script tags in search box -> Click Search	<script>alert('xss')</script>	System sanitizes input and renders empty search/safe error page without executing script	Done as expected
10	Search	Filter results by 'JD Verified' badge and 4.0+ Rating	Perform search -> Apply filter 'JD Verified' -> Apply filter '4.0+ Rating'	Filters: Verified, Rating 4+	Listings refresh to display only verified vendors with rating >= 4.0	Done as expected
11	Search	Search with blank / whitespace input string	Click search bar -> Enter empty space -> Press Enter / Search icon	Data: ' '	Search request should not trigger; field displays placeholder text	Failed - Blank search triggers directory
12	Listing Details	View verified Business Details Page (BDP) information	Search vendor -> Click on vendor card to open detailed profile	Business: 'Apex Dentists'	Page displays Business name, Address, Phone number, Map link, Working hours, and Photos	Done as expected
13	Listing Details	Click 'Show Number' / Call button without logging in	Open BDP -> Click 'Show Number' / 'Call Now' button	Guest User	Prompts user login/OTP popup before revealing full contact phone number	Done as expected
14	Listing Details	Share business listing via WhatsApp/Email link	Open BDP -> Click Share icon -> Select WhatsApp	Any active listing	Generates pre-formatted WhatsApp message with short link to business profile	Done as expected
15	Lead Enquiry	Submit 'Get Best Deal' form with valid details	Open business page -> Click 'Get Best Deal' -> Fill requirements -> Submit	Name: Alex, Req: Need 5 laptops rental	Confirmation screen displayed; lead SMS/email dispatched to vendor and user	Done as expected
16	Lead Enquiry	Submit 'Get Best Deal' form with empty required fields	Click 'Get Best Deal' -> Leave requirement field blank -> Click Submit	Empty requirement	Validation highlights missing required fields in red outline	Done as expected
17	B2B Lead	Bulk B2B requirement inquiry submission across vendors	Navigate to B2B category -> Click 'Get Quotes' -> Fill product volume	Quantity: 500 Units	Requirement shared with top 5 matching B2B suppliers	Gateway integration down in staging environment
18	Reviews	Submit 5-star rating and text review for a service	Open BDP -> Click 'Write a Review' -> Select 5 Stars -> Type feedback -> Submit	Text: 'Excellent service and prompt response'	Review posted successfully and appears under 'Recent Reviews' section	Done as expected
19	Reviews	Submit review without selecting star rating	Open Review popup -> Enter text feedback without clicking stars -> Click Submit	Star: 0, Text: 'Good'	Validation error 'Please select star rating between 1 and 5' appears	Done as expected
20	UI / Responsive	Verify site layout on extreme mobile view viewport width	Open Chrome DevTools -> Resize viewport to 320px width (iPhone SE size)	Viewport: 320px	Header elements, search bar, and buttons wrap responsively without horizontal overflow	Done as expected
